

INC

Part-No.: 585000

The INC (Intelligent Network Controller), is the main controller of the VARIODYN® ONE PAVA system. It is responsible for managing and monitoring all key components of the system including power amplifiers, speaker lines and call stations, etc.

Features:

- Supports 8 to 48 speaker circuits per controller (expand using field mountable Speaker Circuit Modules with 8 spkr ckts/ module)
- Inbuilt Relay Matrix mode
- Supports up to 8 Amplifier channels
- Supports 8 simultaneous Audio per controller
- Inbuilt 8 hours of audio storage
- Intuitive LED interface ensuring you can easily understand the system status

audio storage	1,5 GB
Encoder/Decoder	VARIODYN® ONE ADPCM
Sampling rate	48 kHz, 24 Bit
Voltage supply	AC 115 V - 230 V AC (-15 % ... +10 %), 50 ... 60 Hz
Operation temperature	-5 °C ... +55 °C
Approval	EN 54-16
Storage temperature	-40 °C ... 70 °C
Air humidity	< 95 % (non-condensing)
Weight	approx. 12,45 kg
Dimensions	W: 483 mm H: 88 mm D: 415 mm
Emergency power supply	21,5 V - 28,8 V DC

Accessories:

585020	- Eight Speaker Line Module
585301-	8 Channel amplifier output cable
585302-	4 Channel amplifier output cable
585303-	2 Channel amplifier output cable
585304-	1 Channel amplifier output cable
583491A	- Cat5 patch Cable, 0.5m (green)
